

Think globally, think "K" LINE LOGISTICS
for all your logistics needs.

Message from the President

Thank you so much for your warm support and guidance. As a result our company has successfully grown further.

First our company was founded in Tokyo in October 1960, as a company called Iino Air Service Co., Ltd. In 1969, the company was merged into the group companies of Kawasaki Kisen Kaisha, Ltd. (well known as “K” Line), and changed its name to “K” Line Air Service, Ltd. In 2006, the company merged with an ocean domiciled forwarding company named “K” Logistics Corp., and was then renamed “K” Line Logistics, Ltd. Our company, “K” Line Logistics, Ltd. freshly started as multi functional freight forwarding company.

Currently our company, as the core company of the Kawasaki Kisen group, forms its base with more than 70 locations in Japan and abroad. We are always working to achieve and provide services that meet customers’ needs. We have always tried to realize improvement and customer satisfaction.

In April 2017, our company has drawn up the new three years business plan called “KLL Challenge for Innovation”. We aim at (1) further progress in next decade as an Integrated logistics service provider, (2) developing the client base and expanding our business scale to achieve “qualitative shift” and “quantitative expansion”, (3) being a global company wherein all the staff can increase the motivation in the work and own life, further more taking pride and dreams in being a member of KLL. Also our company has corporate identify, “A company is its people” and in accordance with the consciousness we esteem it highly to cultivate human resources.

I myself have worked abroad for over a total of 21 years and the experiences and the connections with all people that I have worked with are my wealth. I hope that employees will go on with our company and each has a self-respect and feeling of pride as a member of “K” Line Logistics, Ltd. As part of our vision we shall keep trying to develop more than ever as a global company.

Sincerely yours,

Hiroshi Nishigaki
President

“K” LINE LOGISTICS, LTD.

“Entrance to the World” Proposing strategic logistics services

Export Air Cargo (Main handling cargo)

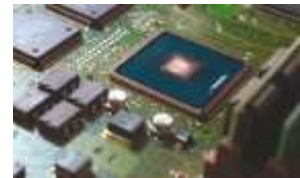

- Semiconductor manufacturing equipment.
- Ultraprecise equipment such as semiconductor material testing equipment.
- Optical disk / Magnetic tape.
- Various industrial goods such as semimanufacture of electric appliance.
- Car-related goods.
- Show-related goods.
- Fresh fish.
- Fresh vegetable.
- Fresh fruit.

“K” Line Logistics has its own offices and agents in most of the main cities in the world. A great variety of air cargo services including regular consolidation service are now being provided.

As for handling general air cargo, including cargo collection, repacking and export customs clearance, we take care your goods safely and deliver them precisely. With respect to 'Door to Door Service' for precision machinery needing special care and ultra-emergency cargo needing instant delivery we have got a good reputation with customers. Moreover, along with the increase of chances of promoting Japanese culture in overseas countries, we also contribute to the culture exchange as we are engaged in transportation of stage setting for theatrical companies or the like.

Precision Machinery

“K” Line Logistics is having wide and long years of experience in transporting precision machineries, semiconductor manufacturing machineries and semiconductor inspection machineries. “K” Line logistics dedicated staff make survey of exterior condition of the package as well as condition of shock watches having being installed in the package at each salient point from shipper's door to the delivery place to make sure safe and proper carriage.

Perishables

“K” Line Logistics full-time staff will always be at your service to help you arrange promptly the complicated procedures and workflow necessary for shipments of perishable goods. If you have any enquiry or you want to discuss about the export of perishables, please don't hesitate to contact our full-time staff.

Event or function related goods/materials

We also handle quite frequently the in and out movement of event/function related setting for drama, opera, musical, concert, exhibition and so on which are performed or held in the different countries of the world.

Similar to the above mentioned precision machinery, various sophisticated and fragile goods/materials are included but these goods are also treated carefully and delivered safely to the destination thanks to personalized service of “K” Line Logistics.

Import Air Cargo
(Main handling cargo)

- Aircraft parts.
- Pharmaceutical products.
- Cosmetic.
- Golf club equipment.
- Books.
- Music software.
- All kinds of entertainment software.

**“From overseas to Japan”
Proposing efficient logistics solution with Global Network**

With the overseas network, “K” Line Logistics provides you with regular consolidation service from different parts of the world.

As for handling general air cargo including cargo collection and packing at the origin place, we deliver your goods safely and precisely. Especially we have vast and long-standing experience in handling import of aircraft parts from the United States and Europe and also storing, picking and delivery service of these goods at the origin countries. We also handle other goods like sundries, clothing, books, cosmetics and chemical.

Pharmaceutical Products, Cosmetics

In the actual medical treatment sites in Japan, medicines imported from all over the world are being used. It is not too much to say that most of the medical supplies are imported from overseas and supplies of raw material of medicines are dependent on import. “K” Line Logistics has professional staff that can help you to apply for import license and other necessary documents from the Ministry of Welfare and Labor. Moreover, if you have any unclear points or queries about the importing method or regulations of cosmetics, please call us without any hesitation.

Aircraft Parts

We handle import of aircraft, helicopter related parts (including large sized parts).

Moreover, we provide with stock control service including receiving and dispatching work at the warehouse from aircraft makers overseas. We do arrange different kinds of services like customs clearance on Saturday and Sunday applying for the customs office's special attendance at Narita International Airport, Kansai International Airport or Centrair, Central Japan International Airport, especially for the urgent cargo (Aircraft On Ground cargo).

Books and CD with Entertainment Software

Please rely on “K” Line Logistics also for books and CD. At our company, we have established the real time inventory warehouse management system by positive development of computer system. Shipments of such market sensitive goods, therefore, can be arranged in a superb timing depending on changing market situation.

Moreover, we can also provide tailor-made IT system for each customer, so please feel free to contact us.

“One Stop Service to the Seven Seas” Satisfying Clients with Total Logistics Solution

Ocean transportation service of “K” Line Logistics is an international multi-modal transportation with combination of land, ocean and air. We provide one stop ocean cargo service including fixed day weekly consolidation service to Hong Kong, China, Thailand and America, customs clearance, storage, delivery, packing, quarantine inspection of plants and animals. Making best use of the know-how accumulated for a long time within the group companies, and in collaboration with “K” Line Logistics Global Network and worldwide “K” Line (world famous deep sea carrier, our mother company) group companies, we always try our best to meet ever-changing needs of our customers by offering “Safe, Speedy and Sure” logistics service.

International Multi-Mode Transportation

We offer borderless and seamless service in response to the clients' requirements. “K” Line group has established the world network and know-how for many years and having the motto “Safe, Speedy and Sure” service, we send you the cargo together with our smile.

In order to provide you high quality and customer oriented international transportation service, we have build up global network consisting of more than 20 own affiliated companies in 13 countries with Japanese expatriates, Representative Offices in several countries and agents in areas where our own offices are not located.

“K” Line Logistics realizes international transportation connecting land, sea and air seamlessly and offers various logistics service including buyers' consolidation making well use of the warehouses owned by the overseas network and local offices and the facilities of the “K” Line group companies in all parts of the world, and also VMS (Visibility Management System), a logistics control system supporting “Supply Chain Management” and other IT system developed by the “K” Line Logistics's own IT team. Features of our service will be

“From door to door”

“No matter what the size of the cargo is”

“Any time and whichever extent you need”

In respect to the transportation of your goods, please make your order to “K” Line Logistics and use its One Stop Service.

Export

Based on client request, we suggest and realize the most appropriate transportation. Any kinds of service is available at ours including cargo collection, packing, vanning into container, customs clearance and also preparation of various shipping documents, documents for bank procedures, documents for export and so on.

Not only normal LCL and FCL cargo but also various awkward cargo like huge-sized equipment for the plant can be handled and best service can be realized using special containers such as Reefer, Open Top and Flat Rack containers in case of loading onto container vessels and also conventional vessels or RORO vessels. Moreover with our special know-how gained through long year experience, we are in a position to handle dangerous goods.

From any part of Japan to any part of the world, we provide you all kinds of services. Please feel free to make an enquiry to us.

Import

We handle all kinds of import goods not only general cargo but also frozen food, perishables, processed food and plant materials. From all parts of the world to all parts of Japan, we deliver goods in a “Safe, Speedy and Sure” manner in response to the needs/requirements of the customers from small lot to the bigger through transportation cargo.

Professional staff with ample experience and actual past performance in handling such cargo are available in “K” Line Logistics. They will help you and offer you all kinds of services including complicated quarantine inspection of plants and animals, application for importing food, dangerous goods or any kinds of over-sized cargo and so on. Moreover, we also provide warehouse management system for non-resident enterprise in the logistics parks in China.

For enquiries on import cargo procedures and so on, please feel free to contact us.

IT

VMS(Visibility Management System) has been developed by “K” Line Group companies as an inventory control system supporting SCM(Supply Chain Management) of our customers. It will be interfaced with customers' in-house application and provide necessary logistics information in real time. It can also be used for tracing your cargo under custody of “K” Line group service network.

“Develop More Advanced IT Logistics” Speedy, Powerful, Convenient and to a New World

The e-business service of “K” Line Logistics is built up upon our “Customer First” principle or “Customer-oriented” business approach . Being one of the supply-chain partners of our customers, we provide customer with a system that can be accessed and processed by customer itself through internet. By combining and integrating various IT systems we will try to meet our customers logistics needs in future.

Our 'E-business Tools' have been developed through many years of experience and the achievement. Installing the most advanced IT technologies provided by IT providers, our IT application can control smooth and undisturbed flow of merchandise starting from purchase order, confirming the purchase order, in/out movement from warehouses, inventory control, tracing the cargo once dispatched.

We have prepared and be ready to provide our clients three different types of IT system which can be offered as is or with some modification according to each client's needs which may depend on kind of merchandise, scale of business or type of supply chain management that client is going to set up and other factors.

WING

Business Scale: Small to Medium Size

* Development Concept

This type is made to meet needs/requirement of such business model in that the manufacturer or shipper tend to take the leadership in logistics control. It can be customized to match each client's needs in a comparatively short period of time.

ITLS

Business Size: Upper Small to Upper Mid Size

* Development Concept

This type is made to meet requirement of such business model in that the manufacturer or shipper and buyer or consumer each has certain degree of control power, and thus logistics control from both sides of lower and upper stream of cargo flow is required. It can be integrated with any types of application irrespective of types of data files.

VMS

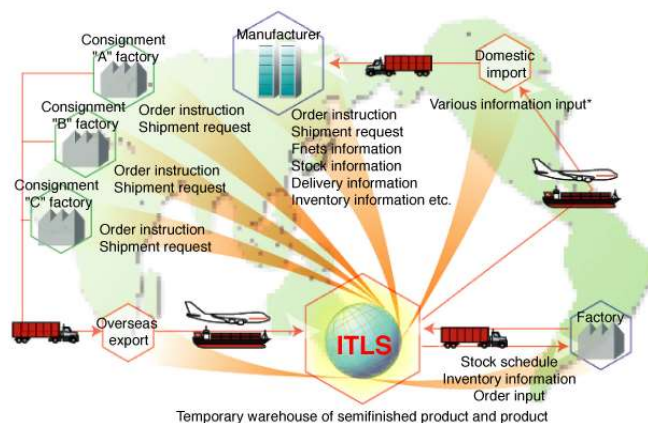

Business Size: Mid to Large Size

* Development Concept

This type is made to match a mode in which buyer or consumer has got the logistics control.

It is most appropriate for the buyers' consolidation and widely utilized in logistics business controlling consumer goods flowing into the United States, the biggest consumer market in the world.

No matter which of the above systems is selected for use by our customers, it is easy to interface and make data linkage with customers' own trunk operation system. It is easily accessed through internet while information security environment is well established taking password and other most modern security measures into consideration.
